POSITION

[40] Marching

Building the Scale of E-flat Major by Tetrachords will show that it includes three flats, B-flat, E-flat, and A-flat. These three flats appear in the Key Signature.

Ottava (8va): to be played an octave higher than written. This is to continue as far as the dots appear. The sign affects only the staff over which it is placed, and does not affect the other staff. Sometimes the sign appears below the staff, and then it means to play an octave lower.
